

Once upon a time,  
there was a princess  
who had rented  
a snail house.

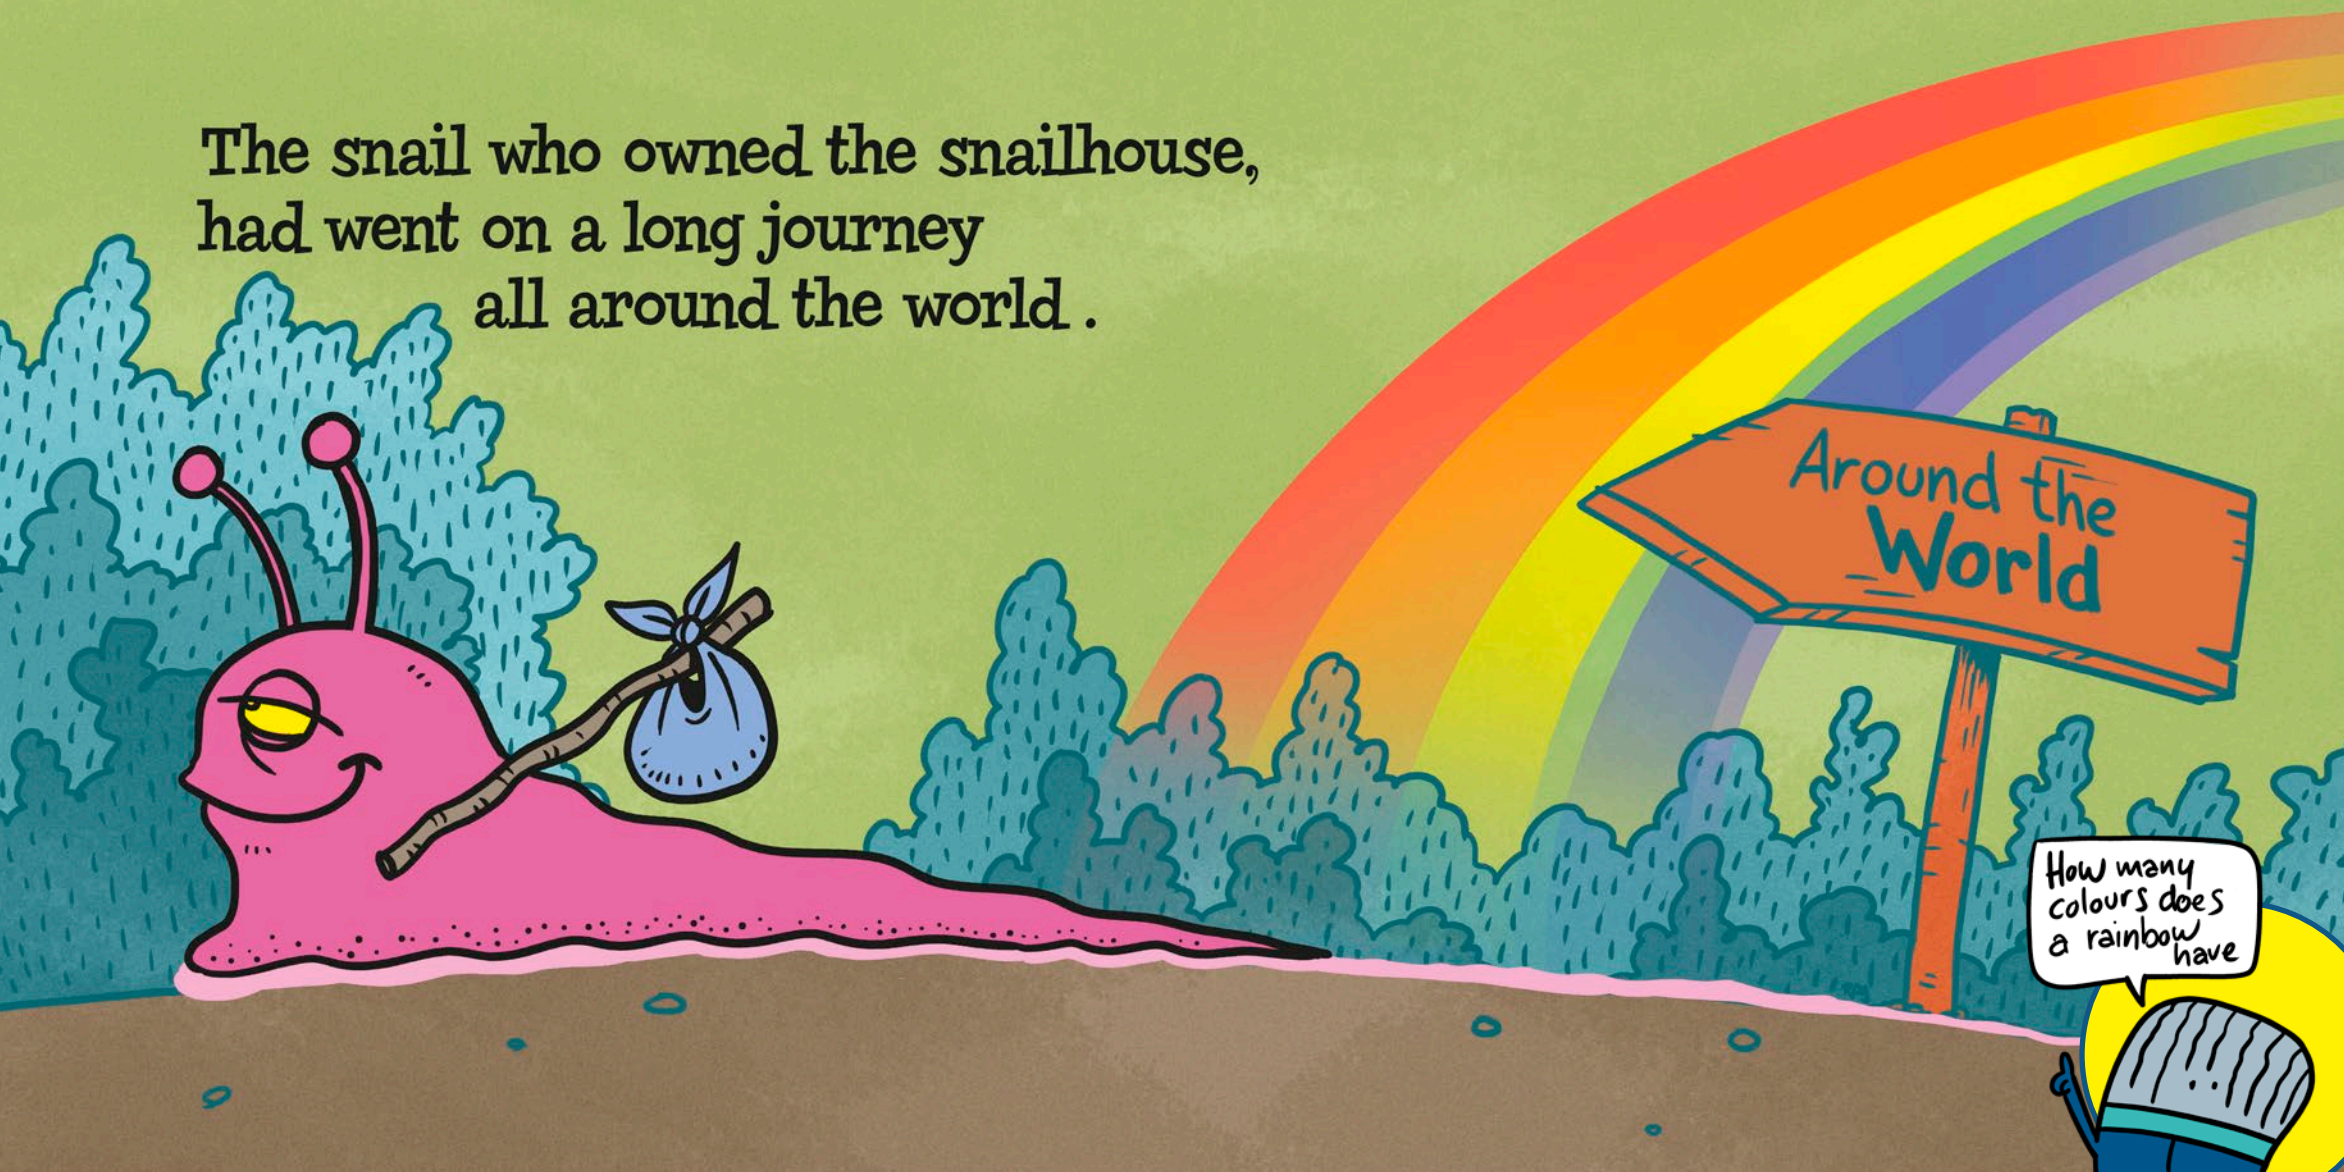

How many windows  
does the  
snailhouse have?

The snail who owned the snailhouse,  
had went on a long journey  
all around the world .

As you know,  
snails are not very fast.

Did you know  
that snails  
actually have  
one foot?

Therefor the princess  
could rent the snailhouse  
for many many years,  
before the snail  
would return.

In fact, she could rent the snailhouse  
for the rest of her life.  
She lived there happily ever after.
